

Wide range of aluminium doors with attractive panel designs available

# allstyle *IN-LINE* ALUMINIUM WINDOW SYSTEM

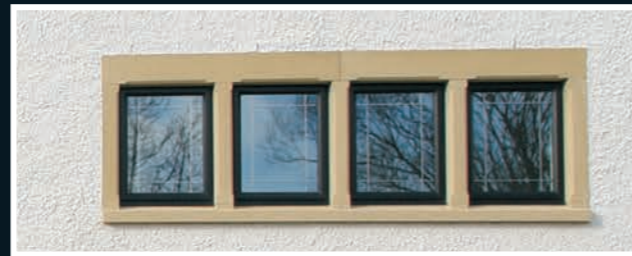

The Allstyle *IN-LINE* window system has the sash within the outer frame creating an in-line look that compliments Bi-fold doors adding to the overall aesthetic appeal of the property. Allstyle aluminium windows and bi-fold doors have the option of concealed trickle ventilation with integrated head - no visible external night vent canopy hoods to spoil the appearance of slim aluminium windows and bi-fold doors.

CONCEALED TRICKLE VENTILATION NIGHT VENT HEAD FOR ALUMINIUM WINDOWS AND BI-FOLD DOORS

200 + RAL COLOURS AVAILABLE

Allstyle windows and doors really can change the look of a home modernising and updating living areas with more light and space. The Allstyle slim *IN-LINE* window system has integrated insulation between the outer frame and brickwork eliminating large cold air pockets normally found in aluminium windows.

affordable aluminium windows & doors for a 21st century lifestyle

ALUMINIUM

# allstyle ALUMINIUM Slim pillarless bi-fold doors

Allstyle bi-fold doors combine the benefits of a single door, French doors and sliding patio doors helping to maximise the use of space for living and entertaining. The Allstyle range of bi-folding doors use 60mm sash profile for slim sight lines with stainless steel rollers for smooth running. Allstyle doors have high security locking and low aluminium threshold options. Allstyle bi-fold doors are available in over 200 RAL colours and have the option of concealed trickle ventilation so that ugly external canopy night vents do not spoil the appearance of the bi-fold doors.

Slim 60mm bi-fold profile can also be used for single and French doors instead of the standard 109mm door profile.

# allstyle ALUMINIUM Aluminium patio doors

Allstyle aluminium sliding patio doors are available with a twin track or triple track and can have wider glass panels than bi-fold doors. The triple track is an alternative to bi-fold doors as they take up less space when open making them ideal for balconies.

3 PANEL TRIPLE TRACK

6 PANEL TRIPLE TRACK

4 PANEL TWIN TRACK

Patio doors allow the maximum use of restricted space

**POPULAR DESIGNS SHOWN SLIDING TO THE LEFT - ALSO AVAILABLE SLIDING TO THE RIGHT AND OPENING IN OR OUT**

Doors can be up to 2.5 metres high and have a maximum door width of a metre. Doors can have a traffic door which can hinge like a conventional door or French doors.

**Key for bi-folding door designs**

- SL: Sliding door
- TD: Traffic door
- SLTD: Sliding traffic door
